

“Conditional Use” Rules for Transient Aircraft Stellar Airpark (P19), Chandler, AZ Revised January 19, 2017

Stellar welcomes transient aircraft, but requires pilots to adhere to the following rules. The use of Stellar Airpark constitutes an acknowledgement of these conditional rules, and the pilot's agreement to follow the rules set forth below:

- Flight School training may only be conducted with PRIOR permission from S. R. U. A.
- Be vigilant for non-radio aircraft based at and operating at the airport.
- Traffic pattern is left hand, at 2000 feet, for both runways 17 and 35, except for Turbine aircraft. Runway 17 is the preferred runway unless winds favor Runway 35. Please enter the downwind for runway 17 over the Chandler Mall.
- Avoid long, low final approaches.
- No straight-in final approaches allowed.
- Touch and go landings, and low passes ARE NOT permitted.
- Practice instrument approaches are NOT authorized.
- Helicopters shall approach the airport from the east avoiding the flow of fixed wing aircraft, and avoiding over-flight of houses.
- Use east taxiway only. West taxiway is restricted: homeowner use only.
- Be vigilant of residents walking, riding bicycles or using vehicles on or around East/West taxiways.
- Run-ups will be performed only at the ends of the runway, on the east side, and in designated areas.
- Departures – Runway 17, maintain runway heading until reaching 500 feet AGL and past the San Tan Freeway.
- Departures – Runway 35, maintain runway heading until reaching 500 feet and past Chandler Boulevard.
- Avoid flying over the homes West of the runway and the school which is approximately ½ mile north of the airpark.
- Please refer to the latest edition of the Airport/Facility Directory for additional information.

This information is provided by the Stellar Runway Utilizers Association (SRUA). Stellar Airpark is a privately owned airport with limited or conditional public access. The airport is surrounded on three sides by residential neighborhoods. In an effort to be a good neighbor to the homeowners that live on, and nearby the airport, we have instituted operational rules and guidelines which are now in effect. Adherence to these rules will help minimize noise aggravation, promote safer operations and reduce the perception of a hazard.

Thank you for your consideration and safe flying at Stellar,

STELLAR RUNWAY UTILIZER'S ASSOCIATION
